

Bio-ITech receives ISO/IEC 27001:2013 certification

Groningen, 18 December 2016

Today, Bio-ITech BV announces that the company is now formally ISO/IEC 27001:2013 certified.

Data security is a concern to organisations that are looking to implement a web-based electronic lab notebook. Although the advantages of cloud solutions are widely acknowledged, the use of cloud applications sometimes conflicts with the strict company security policies. Bio-ITech, the producer of the electronic lab notebook eLabJournal understands these concerns and therefore security always has been a top priority. Bio-ITech works in accordance to the strict requirements of the ISO/IEC 27001:2013 standard to ensure that all the required measures are taken to ensure the safeguarding of your data. The ISO/IEC 27001:2013 certification of Bio-ITech enables organisations to take the advantage of the eLabJournal Cloud solution while complying with strict company policies. Still, if your company policy excludes the use of any cloud vendor, eLabJournal is also available as the eLabJournal Private Cloud and the eLabJournal On-Premise installation.

About Bio-ITech BV
